# Data Presentation

Information in the profiles have been analyzed by population characteristics for a variety of indicators. Each profile was built using the WRHA Population Health Assessment framework. Comparisons are made to other geographies to identify health issues in each population.

Tables and figures were used to illustrate the findings from the Data Book, CHA Report 2004. In addition, geographic mapping was used to demonstrate patterns of occurrence in a population.

It is based on the geographies that characterize the Winnipeg Health Region. The geographies used to characterize the Winnipeg Health Region include: Community Areas and Neighbourhood Clusters. The following maps identify the Community Areas and Neighbourhood Clusters within the Winnipeg Regional Health Authority.

Winnipeg Health Region: Community Areas (12)

- Assiniboine South
- Downtown
- Fort Garry
- Inkster
- Point Douglas
- River East
- River Heights
- Seven Oaks
- St. Boniface
- St. James-Assiniboia
- St. Vital
- Transcona

Winnipeg Health Region: Neighbourhood Clusters (25)

01A St. James-Assiniboia West
01B St. James-Assiniboia East
002 Assiniboine South
03A Fort Garry North
03B Fort Garry South
04A St. Vital North
04B St. Vital South
05A St. Boniface West
05B St. Boniface East
006 Transcona
07A River East South
07B River East West
07C River East East
07D River East North
08A Seven Oaks West
08B Seven Oaks East
08C Seven Oaks North
09A Inkster West
09B Inkster East
10A Point Douglas North
10B Point Douglas South
11A Downtown West
11B Downtown East
12A River Heights West
12B River Heights East
